

JSSC Safety Training Working Group

**Proposed 5/6 week
Professional and Regulatory Training
using
OSHA Training Institute
For Active Duty Safety Professionals**

JSSC Safety Training Working Group

Mission

To develop a Joint Active Duty Safety Training Course in order to produce skilled safety professionals who are capable of enhancing force preservation as well as contributing to public safety, security and emergency response. This course of instruction will use a foundation of OSHA Training Institute courses and include an MOU to provide military centric training.

JSSC Safety Training Working Group

Professional and Regulatory Training (PRT)

- The Occupational Safety and Health Administration (OSHA) Training Institute's Southwest Education Center at TEEX serves Texas, Louisiana, Oklahoma, New Mexico, and Arkansas.
- TEEX's impact on safety and health extends nationwide.
- TEEX operated the top OSHA center again in 2007.
- Twenty-nine courses are conducted at the agency's 32,000 square-foot Mesquite, Texas facility and at locations throughout Region VI.
- PRT annually trains over 10,000 students from a variety of nations.

JSSC Safety Training Working Group
